

## **Methanex Gives Social Responsibility Program Application**

Methanex strives to be a respected and valued corporate citizen by creating positive and sustainable impacts in communities where we operate. Through meaningful dialogue and collaboration, we look to understand each community's specific needs and offer the following *Methanex Gives* social responsibility programs that support social, environmental, and economic issues.

### **What we Fund (Criteria)**

The *Methanex Gives* investment pillars are:

#### **1. Health and Safety: Enhancing personal and workplace health, wellness, and safety**

Strong communities start with healthy and safe communities. Investing in programs that enhance and strengthen the health and well-being or encourage the safety of individuals in our community is one of our top priorities. We support programs that advance continued health, safety, and well-being for individuals. Emphasis is put on results-oriented programs that empower people to achieve healthier and safer lives.

#### **2. Environment: Fostering environmental innovation, conservation, and awareness**

The future relies on healthy and resilient communities that respect the environment. By supporting and partnering with organizations that support the transition to a low-carbon economy or advance environmental innovation, conservation, or awareness, we contribute to the strength and sustainable growth of our community for years to come.

#### **3. Community sustainability: Building capacity for a strong and prosperous future**

We invest in programs that contribute to a vibrant, dynamic, and diverse community. We aim to address issues that impact the sustainability of our community to fuel healthy growth for years to come.

#### **4. The Next Generation: Providing opportunities for children and youth to thrive**

We invest in programs and initiatives for children and youth focused on health and safety, inclusion, reducing inequalities, learning and development, and STEM (science, technology, engineering, and math) education.

Further consideration is given to:

- Impact to the community (Medicine Hat and Methanex proximity neighbours (ie. Redcliff))
- Amount of funding/sponsorship being requested
- Opportunity for Methanex employee involvement/participation
- Quality/reputation of requesting organization (leadership/governance, sustainability, links with others, program management)
- Degree to which the funding helps strengthen or build relationships with Methanex stakeholders
- Risks or related issues

### **Eligibility**

Registered non-profit organizations are eligible to submit a request for grant or sponsorship funding.

Ineligible:

- Those where the activity is conducted outside of Canada
- Political or sectarian groups
- Religious groups whose sole function is the propagation of the faith; grants may be made to religious groups that provide community services on a non-denominational basis
- Self-supporting groups, such as for-profit sport teams

Methanex typically will not provide funding for building fund drives (capital); however, equipment replacement or necessary upgrading of essential facilities may be considered.

\* Please note that the following requests are typically declined, as they do not align with the program’s objectives and criteria.

- Sponsorship of a sports team (ie. hockey team)
- Support for an individual or group’s participation in a fundraiser (ie. fundraising walks, bike-a-thon, etc.)
- Support for an individual or group to travel for a competition, tournament, or other activity (ie. school trip)
- Advertising to support an event or organization’s operations

**Decision-making**

Methanex accepts applications at any time. All requests are reviewed by the Stakeholder Relations department. Additional information may be requested. Methanex follows up with all successful funding applicants.
