Section 1 - PRODUCT AND COMPANY IDENTIFICATION

Material Name
Methanol

Synonyms
Methyl alcohol, wood alcohol, methyl hydroxide

Chemical Family
Alcohols

Product Description
CAS #: 67-56-1. EC #: 200-659-6. UN #: 1230.

Product Use

Restrictions on Use
None known

Details of the supplier of the safety data sheet
Methanex Corporation
1800 Waterfront Centre,
200 Burrard Street, V6C 3M1 - Canada
Phone: +1 604 661 2600
Emergency Phone #: CHEMTREC India 000-800-100-7141 (toll free in country) CHEMTREC India (Mumbai) +(91)-22-33543594

Section 2 - HAZARDS IDENTIFICATION

Classification in accordance with OECD Task Force on Harmonization of Classification and Labelling (Task Force on HCL) for health and environmental hazards, and by UNCETDG/ILO Working Group for Physical Hazards
Flammable Liquids - Category 2
Acute Toxicity - Oral - Category 3
Acute Toxicity - Dermal - Category 3
Acute Toxicity - Inhalation - Vapor - Category 3
Serious Eye Damage/Eye Irritation - Category 2A
Reproductive Toxicity - Category 1A
Specific Target Organ Toxicity - Single Exposure - Category 1 (central nervous system, retina, systemic toxicity, optic nerve)
Specific Target Organ Toxicity - Single Exposure - Category 3

GHS Label Elements
Symbol(s)
Signal Word
Danger

Hazard Statement(s)
Highly flammable liquid and vapor.
Toxic if swallowed.
Toxic in contact with skin.
Toxic if inhaled.
Causes serious eye irritation.
May damage fertility or the unborn child.
Causes damage to organs.
May cause respiratory irritation. May cause drowsiness or dizziness.

Precautionary Statement(s)
Prevention
Obtain special instructions before use.
Do not handle until all safety precautions have been read and understood.
Keep container tightly closed.
Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.
Ground/Bond container and receiving equipment.
Use explosion-proof electrical/ventilating/lighting equipment.
Take action to prevent static discharges.
Use non-sparking tools.
Use only outdoors or in a well-ventilated area.
Use Personal Protective equipment as required.
Wear protective gloves/protective clothing/eye protection/face protection.
Do not breathe dust/fume/gas/mist/vapors/spray.
Wash thoroughly after handling.
Do not eat, drink or smoke when using this product.

Response
In case of fire: Use appropriate media to extinguish.
If exposed or concerned: Call a POISON CENTER or doctor/physician.
If exposed or concerned: Get medical advice/attention.
IF INHALED: Remove person to fresh air and keep comfortable for breathing.
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower. Take off immediately all contaminated clothing and wash it before reuse.
IF SWALLOWED: Immediately call a POISON CENTER/doctor. Rinse mouth. Call a POISON CENTER or doctor.
Specific treatment (see label).

Storage
Store in a well-ventilated place. Keep container tightly closed.
Keep cool.
Store locked up.

**Disposal**
Dispose of contents/container in accordance with local/regional/national/international regulations.

**Other Hazards**
Poison. May be fatal if swallowed. If swallowed there is a risk of blindness.

### Section 4 - FIRST AID MEASURES

**Description of Necessary Measures**
Never give anything by mouth to an unconscious person. Get medical attention/advice if you feel unwell (show the label where possible). Call a POISON CENTER or doctor/physician. Toxic. Flammable. Wear appropriate personal protective equipment. Remove sources of ignition.

**Inhalation**
IF INHALED: Remove person to fresh air and keep comfortable for breathing. Administer oxygen if breathing is difficult. Immediately call a POISON CENTER or doctor.

**Skin**
IF ON SKIN (or hair): Remove/take off immediately all contaminated clothing. Wash with plenty of water. Immediately call a POISON CENTER or doctor. Wash contaminated clothing before reuse.

**Eyes**
IF IN EYES: Immediately flush eyes with water for at least 15 minutes, while holding eyelids open. Remove contact lenses, if present and easy to do. Continue rinsing. If irritation develops and persists, get medical attention.

**Ingestion**
IF SWALLOWED: Rinse mouth. Do NOT induce vomiting. Never give anything by mouth to an unconscious person. Seek medical attention immediately.

**Most Important Symptoms/Effects**

**Acute**
Poison. May be fatal if swallowed. If swallowed there is a risk of blindness. Toxic if swallowed, in contact with skin or if inhaled. Causes serious eye irritation. Causes damage to organs. Ingestion causes nausea, weakness and central nervous system effects, headache, vomiting, dizziness, symptoms of drunkenness. Coma and death due to respiratory failure may follow severe exposures: Medical treatment necessary. A latent period of several hours may occur between exposure and the onset of symptoms.

**Delayed**
May damage fertility or the unborn child.

**Indication of any immediate medical attention and special treatment needed**
Treat symptomatically and supportively. The severity of symptoms depends upon the length and concentration of the exposure. If ingested, get immediate medical attention.

**Note to Physicians**
Treat symptomatically. The severity of outcome following methanol ingestion may be more related to the time between ingestion and treatment, rather than the amount ingested. Therefore, there is a need for rapid treatment of any ingestion exposure. Call a POISON CENTER.
Antidote
Fomepizole enhances elimination of metabolic formic acid. Antidote should be administered by qualified medical personnel.

Section 5 - FIRE FIGHTING MEASURES

Extinguishing Media
Suitable Extinguishing Media
Carbon dioxide, regular dry powder, water spray, alcohol resistant foam, sand. Use water spray to cool fire fire-exposed containers. Water will not cool methanol below its flash point. Collect spillage.

Unsuitable Extinguishing Media
Do not use high-pressure water streams.

Special Hazards Arising from the Chemical
Highly flammable liquid and vapor. Mixtures >20% methanol with water are flammable. May form explosive mixture with air. Vapors are heavier than air and may travel along the ground to some distant source of ignition and flash back. Containers may rupture or explode if exposed to heat. Dangerous gases may accumulate in confined spaces. Toxic.

Hazardous Combustion Products
Releases toxic gases, vapors. Carbon monoxide, carbon dioxide, formaldehyde.

Advice for firefighters
Methanol: Burns with invisible flame. Flame may not be visible in daylight. Cool containers with water spray until well after the fire is out.

Fire Fighting Measures
Do not allow run-off from fire-fighting to enter drains or water courses. Keep unnecessary people away, isolate hazard area and deny entry.

Special Protective Equipment and Precautions for Firefighters
Wear full protective fire fighting gear including self contained breathing apparatus (SCBA) for protection against possible exposure.

Section 6 - ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures for non-emergency personnel
Wear appropriate personal protective equipment. Move container from fire area if it can be done without risk. Do not breathe gas/vapor/spray. Avoid contact with eyes and skin.

Personal precautions, protective equipment and emergency procedures for emergency personnel
Wear appropriate personal protective equipment. Move container from fire area if it can be done without risk. Do not breathe gas/vapor/spray. Avoid contact with eyes and skin.

Environmental Precautions
Avoid release to the environment. Biodegradable at low concentrations. Soluble in water. When released, this product is expected to evaporate. Contact authorities in the event of pollution of soil and aquatic environment or discharge into drains. Dispose in accordance with all applicable federal, state/regional and local laws and regulations.

Methods and Materials for Containment and Cleaning Up
Wear suitable protective clothing and eye/face protection. Stop leak if this can be done without risk. Do not touch or walk through spilled material. Evacuate the area promptly and keep upwind of the spilled material. Ensure adequate ventilation. Avoid inhalation of mists or vapors. Avoid contact with eyes, skin and clothing. Remove all sources of ignition. Avoid friction, static electricity and sparks. Small spills: Absorb with sand or other non-combustible material. Use non-sparking tools and equipment. Collect spilled material in appropriate container for disposal. Clean contaminated surface thoroughly. Large spills: Contain the released material by diking the containment area with
absorbent. A vapor suppressing foam may be used to reduce vapors. Collect spilled material in appropriate container for reuse or disposal.

**Section 7 - HANDLING AND STORAGE**

**Precautions for Safe Handling**
Use in a well ventilated area. Wear personal protective clothing and equipment, see Section 8. Eliminate all sources of ignition. No smoking. Do not enter confined spaces unless adequately ventilated. Clean up contamination/spills as soon as they occur. Decontaminate personnel, spill area and all tools and equipment. Use explosion-proof equipment. Use good industrial hygiene practices in handling this material. Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and leaving work. Empty containers may contain residual amounts of this product; therefore, empty containers should be handled with care. Do not breathe vapor.

**Conditions for Safe Storage, Including any Incompatibilities**
Store in a well-ventilated place. Keep container tightly closed.
Keep cool.
Store locked up.
Keep/Store only in original container. Keep out of direct sunlight, and away from heat, water, and incompatible materials. Ground/Bond container and receiving equipment. Provide appropriate fire extinguishers and spill cleanup equipment in or near storage area. Store at room temperature. Store in a dry area. Store in fireproof room. Keep unauthorized personnel away. Store in receptacles with relief valves, grounding and bonding, and secondary containment.

**Incompatible Materials**
Lead, aluminum, zinc, oxidizing agents, strong acids, strong bases, polyethylene, PVC (Polyvinyl chloride), nitrile

**ACGIH - Threshold Limit Values - Biological Exposure Indices (BEI)**

**Methanol (67-56-1)**

15 mg/l Medium: urine Time: end of shift Parameter: Methanol (background, nonspecific )

**Engineering Controls**

Provide adequate local exhaust ventilation to maintain worker exposure below exposure limits. Use explosion-proof electrical/ventilating/lighting equipment. Handle substance within a closed system. Ground/Bond container and receiving equipment. Maintain eye wash fountain and quick-drench shower in work area.

**Individual Protection Measures, such as Personal Protective Equipment**
Eye/face protection
Wear splash resistant safety goggles with a faceshield.

Skin Protection
Wear chemical resistant clothing to prevent skin contact.

Respiratory Protection
Any supplied-air respirator with a full facepiece that is operated in a pressure-demand or other positive-pressure mode. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.

Glove Recommendations
Wear appropriate chemical resistant gloves.

Protective Materials
natural rubber, neoprene, butyl rubber

Critical Temperature | 239.4 °C | Oxidising properties | Not oxidising

Explosive properties | Vapors may form explosive mixtures with air

Solvent Miscibility
Miscible
Miscible with water.

Section 10 - STABILITY AND REACTIVITY

Reactivity
Containers may rupture or explode if exposed to heat.

Chemical Stability
Stable under normal conditions of use. In use may form flammable/explosive vapor-air mixture. Product is hygroscopic.

Possibility of Hazardous Reactions
Will not polymerize.

Conditions to Avoid
Avoid heat, flames, sparks and other sources of ignition. Containers may rupture or explode if exposed to heat.

Avoid direct sunlight.

Incompatible Materials
Lead, Aluminum, zinc, oxidizing agents, strong acids, strong bases, polyethylene, PVC (Polyvinyl chloride), nitrile

Hazardous decomposition products
Heat, carbon monoxide, carbon dioxide, flammable gases, formaldehyde

Section 11 - TOXICOLOGICAL INFORMATION

Acute and Chronic Toxicity
May be fatal if swallowed. If swallowed there is a risk of blindness. Toxic if swallowed, in contact with skin or if inhaled. May damage fertility or the unborn child.

Component Analysis - LD50/LC50
The components of this material have been reviewed in various sources and the following selected endpoints are published:

Methanol (67-56-1)
Oral LD50 Rat 5600 mg/kg
Dermal LD50 Rabbit 15800 mg/kg
Inhalation LC50 Rat 64000 ppm 4 h

Information on Likely Routes of Exposure

Inhalation
Toxic if inhaled.
Safety Data Sheet

Material Name: Methanol
SDS ID: Methanol-India

Skin Contact
Toxic in contact with skin.

Eye Contact
Causes serious eye irritation.

Ingestion
Poison. May be fatal if swallowed. If swallowed there is a risk of blindness.

Irritation/Corrosivity Data
Causes serious eye irritation. May cause respiratory irritation.

Dermal Sensitization
No data available.

Respiratory Sensitization
No data available.

Immediate Effects
Poison. Toxic if swallowed, in contact with skin or if inhaled. May be fatal if swallowed. If swallowed there is a risk of blindness. Causes serious eye irritation. Causes damage to organs. Ingestion causes nausea, weakness and central nervous system effects, headache, vomiting, dizziness, symptoms of drunkenness. Coma and death due to respiratory failure may follow severe exposures: Medical treatment necessary. A latent period of several hours may occur between exposure and the onset of symptoms.

Delayed Effects
May damage fertility or the unborn child.

Component Carcinogenicity
None of this product's components are listed by ACGIH, IARC, NTP, DFG or OSHA.

Germ Cell Mutagenicity
No data available.

Tumorigenic Data
No data available

Reproductive Toxicity
May damage fertility or the unborn child.

Specific Target Organ Toxicity - Single Exposure
Central Nervous System, optic nerve, retina, systemic system

Specific Target Organ Toxicity - Repeated Exposure
No target organs identified.

Aspiration hazard
Not applicable

Medical Conditions Aggravated by Exposure
No data available.

Section 12 - ECOLOGICAL INFORMATION

Ecotoxicity
Avoid release to the environment.
